OUR STORY

Parkers is a full-service creative digital agency firm founded in 2016. The idea behind starting this firm was to help businesses, especially small businesses to market their services and products in a simpler way by leveraging all the relevant digital channels. We work with ambitious start-ups as well as multi-national companies across the United Kingdom.

OUR SERVICES

Digital Marketing

Digital marketing encompasses all marketing efforts that use an electronic device or the internet. Businesses leverage digital channels such as search engines, social media, email, and other websites to connect with prospective customers.

Social Media Management

Our Social Media Marketing team can help your brand engage with your audience through compelling designs, unique applications, meaningful interactions, and relevant content primed to entice participation and feedback.

Web & Graphic Design

Our team of highly skilled designers know where to find inspiration and how to combine that with seamless experiences to create content that not only catches the eye but keeps visitors engaged for longer.

Website Development

Be it static HTML based websites, database driven E-commerce websites or chic Corporate websites, our creative and tech teams work in close tandem through the project lifecycle, ensuring that the user interface, visual design and technologies function seamlessly and aid the overarching strategy within your digital estate.
